

Kindergarten Spotlight:

How the World Works

An inquiry into the natural world and its laws.

This IB unit takes a close look into day and night patterns!

Central Idea: Systems in the world follow patterns

Our unit will dive into...

* How patterns can exist in the sky and change from day to night. (change) *How the sun and land affect our lives. (connection) *How the solar system is interconnected. (connection)

We will explore these key concepts:

* **Change**- How is it changing? ***Connection**-How is it connected to other things?

Our guiding questions will include:

* What is a change? *Why does the Earth change? *How do things change? *How does the Earth move?

We will focus on being these Learner Profile attributes:

****Risk Taker**- We try new things. **Inquirer**-We ask questions and are curious.

We will demonstrate these IB Attitudes:

***Confidence**-We have the courage to take risks. **Enthusiasm**- We enjoy learning.

We will practice these skills:

***Thinking Skills**- We will acquire knowledge, comprehend, apply, and synthesize.
